There is an amusing effort being made in several sections of baseball dom to convey the impression that the American league is on the verge of a breakup financially, and the proofs are that the American league has sold two pischers, Lee and Flaherty, to Pittsburg this year and that the Washington club has reduced the price of ad-

American gold was Professor Sommerville's magnet wherever he went. He thus described its effect on one of his expeditions:

"On one occasion we desired to visit the famous Dilwarra temples in India, and for that purpose engaged two jinrikishas and a number of natives to draw them, about twelve in all. The temples, as you know, are set in a magnificent grove of mango trees on a mountain top and surrounded by great hills. With a fair measure of tact and money I hoped to secure from the people of the vicinity some of their odd talismans and rings. I said to the chief rickshaw man: 'Now, Lala, what will you do for me if I double your pay? I want to make this journey in half time, and if you accomplish it you shall be doubly paid."

"He went to his helpers at once and informed them that I was a prince. We started out under the contract.
